A decorative orange circle is positioned on the left side of the page, with a thin vertical orange line extending upwards from its top and a thin vertical black line extending downwards from its bottom.

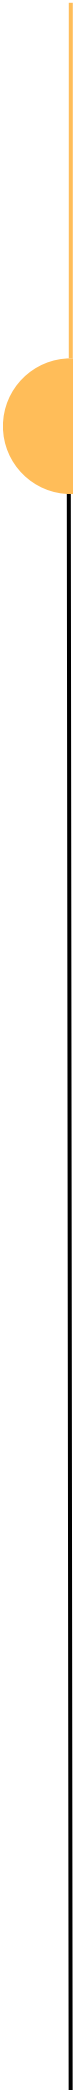

Functional Requirements Document (FRD)

Document Information

Version	Date	Author	Status
1	DD/MM/YYYY		Draft

Revision History

Version	Date	Author	Changes
1	DD/MM/YYYY		Initial Draft

1. Introduction

1.1 Purpose

Explain why this system is being built and what problem it solves.

Example:

The purpose of this document is to define the functional requirements for the Clinic Management System. It describes the features, workflows, user interactions, and system behavior.

1.2 Scope

Describe what the application includes.

Example

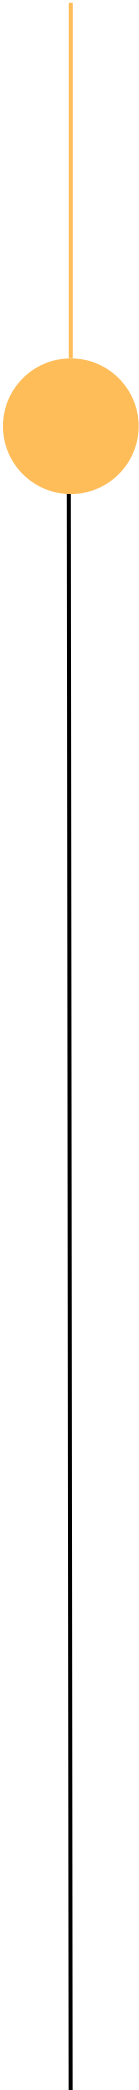

- Appointment Management
- Patient Management
- Billing
- Reports
- Notifications
- User Management

Out of Scope

- Payroll
- Inventory
- Mobile App

1.3 Objectives

- Reduce manual work
- Improve efficiency
- Increase appointment accuracy
- Generate reports automatically

2. Stakeholders

Role	Responsibility
Client	Business approval
Product Owner	Requirement validation
Business Analyst	Requirement gathering
UI/UX Designer	Wireframes
Development Team	Development
QA Team	Testing

3. User Roles

Role	Permissions
Admin	Full access
Receptionist	Book appointments
Doctor	View patients
Patient	Book appointment
Accountant	Billing

4. Functional Modules

List every module.

Example

1. Authentication
2. Dashboard
3. User Management
4. Patient Management
5. Appointment Management
6. Billing
7. Reports
8. Notification
9. Settings

5. Functional Requirements

Each feature gets its own section.

1 : Authentication

Eg:

FR-001 Login

Description

Users should be able to log into the application.

Actors

- Admin
- Receptionist
- Doctor

Preconditions

- User account exists.
- User is active.

Workflow

1. User enters email.
2. User enters password.
3. Click Login.
4. System validates credentials.
5. Redirect to dashboard.

Postconditions

User session created.

Business Rules

- Password minimum 8 characters.
- Account locks after 5 failed attempts.

Validation

- Email mandatory
- Password mandatory

Exception

- Invalid credentials
- Inactive account

6. Functional Requirement Matrix

ID	Module	Requirement	Priority
FR-001	Login	User Login	High
FR-002	Patient	Add Patient	High
FR-003	Appointment	Book Appointment	High
FR-004	Billing	Generate Invoice	Medium
FR-005	Reports	View Reports	Medium

7. Business Rules

BR-001

Appointment cannot be booked on holidays.

BR-002

Doctor cannot have overlapping appointments.

BR-003

Advance payment required for premium services.

BR-004

Cancelled appointments release slot immediately.

8. Validation Rules

Screen	Field	Validation
Login	Email	Required
Patient	Mobile	10 digits
Appointment	Date	Future only
Billing	Amount	Positive

9. Error Messages

Scenario	Message
Invalid Login	Invalid email or password
Slot Taken	Selected slot is unavailable
Duplicate Patient	Patient already exists
Payment Failed	Unable to process payment

10. Notifications

Event	Recipient	Channel
Appointment Booked	Patient	WhatsApp
Appointment Cancelled	Patient	SMS
Payment Success	Patient	Email
Reminder	Patient	WhatsApp

11. Reports

Report	Users
Revenue Report	Admin
Daily Appointment	Receptionist
Patient History	Doctor
Therapist Performance	Admin

12. Audit Log

System should maintain logs for:

- Login
- Logout
- Create
- Update
- Delete
- Payment
- Appointment Changes

13. Acceptance Criteria

Requirement	Acceptance Criteria
Login	User logs in successfully
Appointment	Booking created successfully
Billing	Invoice generated correctly
Reports	Report exports successfully

14. Assumptions

- Internet connection available.
- Users have valid credentials.
- SMS and email services are configured.

15. Constraints

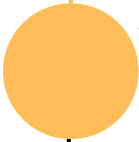

- Web application only.
- Supported browsers: Chrome, Edge, Safari.
- HTTPS mandatory.

16. Dependencies

- Payment Gateway
- SMS API
- Email Service
- Authentication Service
- Database
- Notification Service

17. Glossary

Term	Meaning
Patient	Clinic customer
Appointment	Scheduled consultation
Invoice	Billing document
Therapist	Service provider
Admin	System administrator

Appendix

Wireframes

(Add UI mockups here)

API References

(List APIs used)

Workflow Diagrams

(Add process flow diagrams)

Screen References

(Add screenshots or Figma links)

Future Enhancements

- **Any references or options.**
