# Stakeholder Register

## Document Information

| Field           | Value                |
|-----------------|----------------------|
| Project Name    |                      |
| Document Name   | Stakeholder Register |
| Version         | 1                    |
| Author          |                      |
| Project Manager |                      |
| Date            |                      |
| Status          | Draft / Approved     |

## Revision History

| Version | Date | Author | Changes       |
|---------|------|--------|---------------|
| 1       |      |        | Initial Draft |

## **Table of Contents**

1. Introduction
2. Stakeholder Register
3. Stakeholder Analysis
4. Power Interest Matrix
5. Communication Plan
6. Engagement Strategy
7. Risks
8. Approval

### **1. Introduction**

#### **Purpose**

Describe the purpose of maintaining the stakeholder register.

#### **Example:**

The Stakeholder Register identifies everyone who has an interest in the project, defines their responsibilities, influence, communication requirements, and engagement strategy to ensure successful project delivery.

## 2. Stakeholder Register

|                           |                                                                                                                                                |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>ID</b>                 | <b>ST-001 / ST-002</b>                                                                                                                         |

| <b>Decision Authority</b> | High / Medium / Low                                                                                                                            |
| <b>Contact</b>            |                                                                                                                                                |
| <b>Status</b>             | Active                                                                                                                                         |

### 3. Stakeholder Analysis

| Stakeholder     | Expectations       | Concerns                     | Success Criteria               |
|-----------------|--------------------|------------------------------|--------------------------------|
| Project Sponsor | On-time delivery   | Budget overruns              | Project delivered within scope |
| Product Owner   | Required features  | Scope changes                | Business objectives achieved   |
| End Users       | Easy-to-use system | Poor usability               | Improved productivity          |
| Technical Lead  | Clear requirements | Frequent requirement changes | Stable implementation          |

### 4. Power Interest Matrix

| Stakeholder           | Power  | Interest | Management Strategy |
|-----------------------|--------|----------|---------------------|
| Project Sponsor       | High   | High     | Manage Closely      |
| Product Owner         | High   | High     | Manage Closely      |
| Client Representative | High   | Medium   | Keep Satisfied      |
| Technical Lead        | Medium | High     | Keep Informed       |
| QA Team               | Medium | Medium   | Keep Informed       |
| End Users             | Low    | High     | Keep Informed       |
| External Vendors      | Low    | Low      | Monitor             |

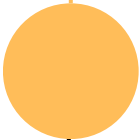

## Matrix Reference

| Quadrant                  | Description    |
|---------------------------|----------------|
| High Power, High Interest | Manage Closely |
| High Power, Low Interest  | Keep Satisfied |
| Low Power, High Interest  | Keep Informed  |
| Low Power, Low Interest   | Monitor        |

## 5. Communication Plan

| Stakeholder     | Information       | Frequency      | Method        | Owner           |
|-----------------|-------------------|----------------|---------------|-----------------|
| Project Sponsor | Project Status    | Weekly         | Meeting       | Project Manager |
| Product Owner   | Sprint Progress   | Weekly         | Scrum Meeting | Scrum Master    |
| Client          | Milestone Updates | Biweekly       | Presentation  | Project Manager |
| Technical Team  | Daily Tasks       | Daily          | Stand-up      | Scrum Master    |
| End Users       | Training          | Before Go-live | Workshop      | BA              |

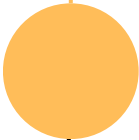

## 6. Engagement Strategy

| Stakeholder   | Current Engagement | Desired Engagement | Action Plan                                  |
|---------------|--------------------|--------------------|----------------------------------------------|
| Sponsor       | Supportive         | Leading            | Weekly reviews                               |
| Product Owner | Engaged            | Leading            | Sprint planning participation                |
| End Users     | Neutral            | Supportive         | Product demonstrations and feedback sessions |
| Client        | Supportive         | Leading            | Monthly steering committee meetings          |

## 7. Decision-Making Authority

| Decision               | Responsible Stakeholder |
|------------------------|-------------------------|
| Budget Approval        | Project Sponsor         |
| Feature Prioritization | Product Owner           |
| Technical Design       | Technical Lead          |
| Deployment Approval    | Project Manager         |
| UAT Sign-off           | Client Representative   |

## 8. Stakeholder Risks

| Stakeholder | Risk               | Impact | Mitigation                            |
|-------------|--------------------|--------|---------------------------------------|
| Sponsor     | Delayed approvals  | High   | Schedule approval meetings in advance |
| Client      | Scope changes      | High   | Formal change request process         |
| End Users   | Low adoption       | Medium | Training and change management        |
| Vendor      | Integration delays | Medium | Early integration testing             |

## 9. Stakeholder Engagement Log

| Date | Stakeholder | Interaction      | Outcome                | Next Action       |
|------|-------------|------------------|------------------------|-------------------|
|      |             | Kick-off meeting | Requirements confirmed | Schedule workshop |
|      |             | Sprint Review    | Feedback received      | Update backlog    |

## 10. Approval

| Role             | Name | Signature | Date |
|------------------|------|-----------|------|
| Project Sponsor  |      |           |      |
| Product Owner    |      |           |      |
| Project Manager  |      |           |      |
| Business Analyst |      |           |      |

## Appendix : RACI Matrix

### Legend:

- **R = Responsible**
- **A = Accountable**
- **C = Consulted**
- **I = Informed**

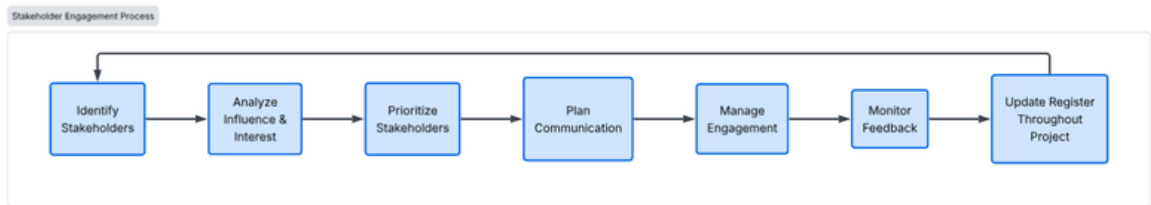

| Activity               | Sponsor | Product Owner | BA | PM |
|------------------------|---------|---------------|----|----|
| Requirements Gathering | I       | A             | R  | C  |
| Solution Design        | I       | C             | C  | A  |
| Development            | I       | I             | C  | A  |
| Testing                | I       | I             | C  | C  |
| UAT                    | I       | C             | C  | C  |
| Go-Live                | A       | C             | I  | R  |

| Activity               | Dev | QA | Client |
|------------------------|-----|----|--------|
| Requirements Gathering | I   | I  | C      |
| Solution Design        | R   | C  | I      |
| Development            | R   | C  | I      |
| Testing                | C   | R  | I      |
| UAT                    | I   | C  | A      |
| Go-Live                | C   | C  | I      |

# Stakeholder Classification

| Category   | Examples                               |
|------------|----------------------------------------|
| Executive  | Sponsor, Steering Committee            |
| Business   | Product Owner, Business Users          |
| Technical  | Architects, Developers, QA, DevOps     |
| External   | Clients, Vendors, Third-party Partners |
| Regulatory | Compliance, Legal, Auditors            |

# Stakeholder Management Lifecycle

## **Best Practices**

- **Update the register whenever stakeholders join, leave, or change roles.**
- **Review stakeholder influence and interest at key project milestones.**
- **Align the communication plan with stakeholder expectations and project governance.**
- **Use the register alongside the Communication Plan and RACI Matrix to ensure accountability and consistent engagement.**
