1			Initial Draft

Table of Contents

1. Introduction
2. Objectives
3. Scope
4. Entry & Exit Criteria
5. Roles & Responsibilities
6. Test Environment
7. UAT Scenarios
8. Test Cases
9. Defect Log
10. Sign-off
11. Appendix

1. Introduction

Purpose

Describe why UAT is being conducted.

Example:

The purpose of User Acceptance Testing is to validate that the Clinic Management System meets the agreed business requirements and is ready for production use.

2. Objectives

- Validate business requirements.
- Verify end-to-end workflows.
- Confirm usability.
- Identify business-critical defects.
- Obtain stakeholder approval.

3. Scope

In Scope

- User Login
- Patient Registration
- Appointment Booking
- Billing
- Reports

Out of Scope

- Performance Testing
- Security Testing
- Load Testing

4. Entry Criteria

UAT may begin only if:

- Development is complete.
- QA testing has passed.
- Critical defects are resolved.
- Test environment is available.
- Test data is prepared.

5. Exit Criteria

UAT is complete when:

- All critical test cases pass.
- No Critical or High severity defects remain open.
- Business stakeholders approve the system.
- UAT sign-off is completed.

6. Roles & Responsibilities

Role	Responsibility
Product Owner	Final approval
Business Analyst	Coordinate UAT
QA Team	Support testing
Developers	Fix defects
Business Users	Execute test cases

7. Test Environment

Item	Details
Environment	UAT
URL	
Database	
Browser	Chrome, Edge, Firefox
Test Accounts	

8. UAT Scenarios

Scenario ID	Scenario	Priority
UAT-001	User Login	High
UAT-002	Register Patient	High
UAT-003	Book Appointment	High
UAT-004	Generate Invoice	Medium
UAT-005	View Reports	Medium

9. UAT Test Case Template

Test Case ID

UAT-TC-001

Test Scenario

User Login

Business Requirement

BR-001

Functional Requirement

FR-001

Preconditions

- User account exists.
- User is active.

Test Data

Field	Value
Email	admin@example.com
Password	Password@123

Test Steps

Step	Action
1	Open login page
2	Enter email
3	Enter password
4	Click Login

Expected Result

User is redirected to the dashboard.

Actual Result

(To be completed during execution.)

Status

- Pass
- Fail
- Blocked
- Not Executed

Comments

(Add notes if required.)

10. UAT Test Case Summary

Test Case	Scenario	Priority	Status
UAT-TC-001	Login	High	Pass
UAT-TC-002	Register Patient	High	Pass
UAT-TC-003	Appointment Booking	High	Fail
UAT-TC-004	Billing	Medium	Pass

11. Defect Log

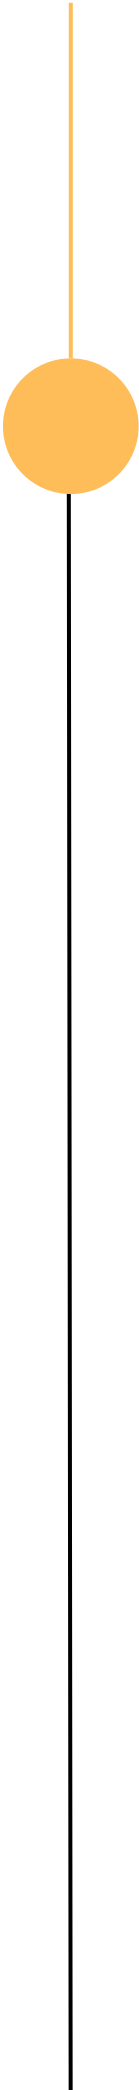

Defect ID	Test Case	Severity	Description	Status	Owner
BUG-001	UAT-TC-003	High	Appointment not saved	Open	Backend Team
BUG-002	UAT-TC-004	Medium	Invoice rounding issue	Fixed	Development Team

12. Defect Severity

Severity	Meaning
Critical	System unusable
High	Major business function fails
Medium	Feature works with minor issues
Low	Cosmetic or minor issue

13. Defect Status

Status	Description
Open	Newly reported
Assigned	Assigned to developer
In Progress	Being fixed
Fixed	Fix completed
Retesting	Under verification
Closed	Verified and closed
Rejected	Not considered a defect

14. UAT Progress Dashboard

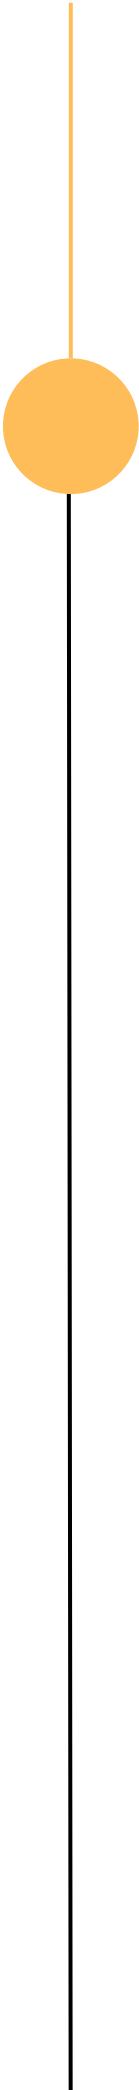

Metric	Value
Total Test Cases	
Executed	
Passed	
Failed	
Blocked	
Pass Percentage	

15. Risks

Risk	Impact	Mitigation
Business user unavailable	High	Schedule sessions early
Incomplete test data	Medium	Prepare datasets before UAT
Critical defects	High	Prioritize fixes

16. Assumptions

- Business users are available.
- Test environment is stable.
- Required integrations are operational.

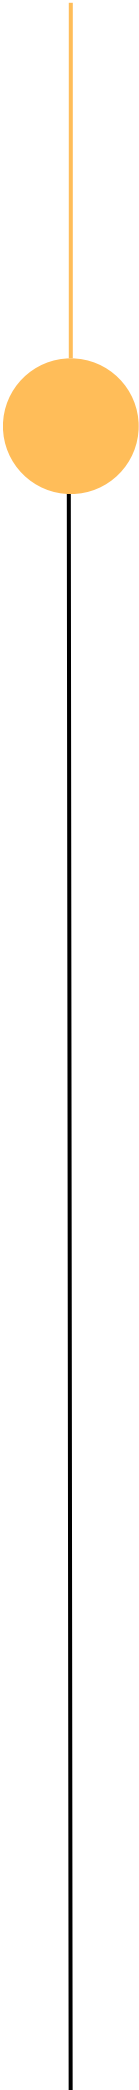

17. UAT Sign-Off

Role	Name	Signature	Date
Client			
Product Owner			
Business Analyst			
QA Lead			

18. Appendix

Test Data

(Add sample users, products, appointments, Screen shots etc.)
